PROFILE:

Full Stack Developer with 2+ years of proven expertise in delivering end-to-end technology solutions across Saudi Arabia and Malaysia. First-Class Honors graduate in Computer Science & Software Engineering, specializing in the complete software development lifecycle—from initial concept through deployment and ongoing maintenance for both web and mobile applications. Combines strong technical proficiency with a user-centric approach to create innovative, scalable solutions that drive business value and enhance user experiences.

EXPERIENCE:

Full Stack Developer

Othouba Line | Jeddah, Saudi Arabia

Mar 2024 – Mar 2025

- Architected and built responsive, SEO-optimized web applications using React and Next.js.
- Developed and integrated RESTful APIs with Appwrite as a comprehensive backend.
- Implemented CI/CD pipelines to automate testing and deployment.

Full Stack Developer

Freelance | Remote

Dec 2022 – Present

- Developed a variety of cross-platform web and mobile applications using Flutter, Django, and Next.js.
- Built RESTful APIs, optimized SQL/NoSQL databases, and integrated third-party services.

Web Scraping / Software Developer

Fresh Futures Australia PTY LTD | Remote

Jun 2022 – Sep 2022

- Developed automation tools using Python, BeautifulSoup, and Selenium.
- Increased data processing efficiency by 10x through multiprocessing.

Projects:

Recipify | Full Stack Developer

recipify.online

Developed a full-stack recipe management platform using Vue.js/Nuxt.js for a high-performance frontend and Appwrite for a complete NoSQL backend, featuring advanced search and user-generated content.

E-Commerce System with Object Recognition (AI)

Developed an innovative e-commerce web application allowing users to search for products via text or image, using a tech stack of Python, Django, TensorFlow, and OpenCV.
