Frontend:	React, Next.js, Vue.js, Nuxt.js, Svelte, SvelteKit, Vite, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, Django, REST APIs
Mobile:	Flutter, React Native
Databases:	PostgreSQL, MySQL, SQL Server, MongoDB, Firebase, Appwrite, Supabase, PowerSync
Tools & Platforms:	Docker, Git, CI/CD, DigitalOcean, Cloudflare, Google Cloud Platform, Stripe, Google Tag Manager & Analytics
AI & Data:	TensorFlow, OpenCV, BeautifulSoup, Selenium

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Abdulwaheed Mohammed Est. **Jeddah, Saudi Arabia (On-site) | Jan 2026 – Present**

- Built and launched an Arabic PWA business website for a Jeddah-based client using SvelteKit, Tailwind CSS, Vite, and Cloudflare—featuring local SEO, lead integrations (WhatsApp/Maps), and full Google Tag Manager/Analytics/Ads tracking.
- Designed and built an edge-deployed **CRM** PWA (SvelteKit, Cloudflare Workers, PowerSync, Supabase) to replace legacy paper/spreadsheet processes; scaled system to 5k+ customers and 20k+ orders while cutting record lookup times from 5–10 minutes to instant search.

Technologies: SvelteKit, Svelte, TypeScript, Tailwind CSS, Vite, PWA, Supabase (PostgreSQL), PowerSync, Cloudflare, Google Tag Manager, Google Analytics, Google Maps

Software Engineer (Freelance) — Koprey **Jeddah, Saudi Arabia (Remote) | Sep 2022 – Present**

- Delivered full-stack web and mobile applications for e-commerce, social media, and education using Next.js, React, Django, Python, and Flutter, including Stripe payment integration.
- Gathered client requirements and turned them into technical specifications; handled design, development, testing, deployment, and ongoing maintenance.

Technologies: Next.js, React, Django, Python, Node.js, Flutter, REST APIs, MySQL, PostgreSQL, Stripe, Docker, Git

Web Scraping / Software Developer — Fresh Futures Australia PTY LTD **Remote | Jun 2022 – Sep 2022**

- Developed web scraping and automation tools with Python, BeautifulSoup, and Selenium.
- Increased data processing efficiency by 10x through multiprocessing.

SELECTED PROJECTS

- **E-Commerce System with Object Recognition (AI)** – Django, TensorFlow, OpenCV. Built product search functionality by text or image utilizing AI object recognition algorithms.

EDUCATION

B.Sc. Computer Science & Software Engineering **2019 – 2022**
INTI International University & Coventry University
Honors & Awards: First-Class Honors | CGPA: 3.61/4.0 | President's List (2020) | Dean's List (2021)

LANGUAGES & CERTIFICATIONS

- **Arabic:** Native Speaker
- **English:** Professional Working Proficiency (iBT TOEFL 91/120)
